CS5331 Web Security Assignment 3: Public Benchmarks

By Jeremy Heng

Last Updated: April 4, 2018

Contents

1 Introduction

You may download the OVA virtual machine appliance at https://goo.gl/jCSxRy.

To use the appliance, please follow the instructions:
https://docs.oracle.com/cd/E26217_01/E26796/html/qs-import-vm.html.

2 Credentials

If you require, the credentials for the VM are:

2.1 Ubuntu

- Username: cs5331
- Password: cs5331

These credentials have sudo access.

2.2 MySQL

- Username: root
- Password: toor

3   Benchmarks

To access the benchmarks, you may use the Firefox application on the virtual machine and navigate to `target.com`. Note that a DNS entry has been added to the `/etc/hosts` file on the virtual machine.
